U.S. Army War College Library

July 2004

Preface

Transformation: A Selected Bibliography was compiled to support the U.S. Army War College's curriculum presentation of transformation. The books, documents, periodical articles, and web sites offer additional information resources pertaining to some of the challenges of transformation.

Most of the materials are dated 2002 to the present. All are available in the U.S. Army War College Library or can be accessed via the Internet. Call numbers were added at the end of each book or document entry to indicate an item's shelf location in the library. Internet addresses were checked for accessibility May-June 2004.

This bibliography is available online through our home page: <http://www.carlisle.army.mil/library>. For additional information, please contact the Research and Information Services Branch, U.S. Army War College Library, by sending an e-mail message to libraryr@carlisle.army.mil, or by phoning DSN 242-4260 or Commercial (717) 245-4260.

Jacqueline S. Bey, compiler

What is Transformation?
Transformation is "a process that shapes the changing nature of military competition and cooperation through new combinations of concepts, capabilities, people and organizations that exploit our nation's advantages and protect against our asymmetric vulnerabilities to sustain our strategic position, which helps underpin peace and stability in the world."
